

Specification Sheet

Product Name	HabiStat Bearded Dragon Substrate, 10kg
Product Codes	HSBD10E
Description	The HabiStat Bearded Dragon blend replicates the sandy soils of Australia's arid outback, the perfect substrate for desert dwelling species. This new formula is an expertly crafted mix of red sand and clay, designed to promote natural behaviours like digging for thermoregulation and open-area basking. The HabiStat substrate range now comes pre-hydrated, which temporarily increases humidity after it's added, helping replicate seasonal rain and natural moisture cycling. Ready to use straight from the bag for a naturalistic, enriching habitat.
Intended Use	Animal use only
Available weight	10.08KG (Weight may vary due to fluctuating moisture levels)
Key Ingredients	Red Sand, Clay, Soil
Technical Specifications	NA
Instructions for proper use	Spread substrate evenly across the vivarium base ensuring a depth of at least 2-3" (5-7.5cm). Do not overfill if using underfloor heating. We recommend you spot clean daily, and change or refresh every 6-12 months.
Precautions for use	Wear protective clothing like gloves when handling substrate and supervise children closely. Bags may be heavy.
Storage & Handling instructions	Please store this product out of reach from children.
Manufacturers Information	Monkfield Nutrition Ltd, Arthur Rickwood Farm, Chatteris Road, Mepal, Ely, Cambs, CB6 2AZ, UK
