

## Specification Sheet

Product Name	HabiStat Jungle Bio Substrate, 10L
Product Codes	HSJB10E
Description	The HabiStat Jungle Bio blend is inspired by the rich, diverse, living floors of tropical ecosystems. It is the perfect natural foundation for a thriving bioactive habitat. This unique blend of soil and organics makes it the ideal home for reptiles, amphibians, and invertebrates. Jungle Bio comes pre-hydrated, which temporarily increases humidity once added to the habitat, with regular spraying required to maintain levels. It helps support a self-regulating bioactive environment. Ready to use straight from the bag for a naturalistic, enriching habitat.
Intended Use	Animal use only
Available weight	3.93KG (Weight may vary due to fluctuating moisture levels)
Key Ingredients	Organic peat, composted bark fines, fine bark
Technical Specifications	NA
Instructions for proper use	Spread substrate evenly across the vivarium base ensuring a depth of at least 2-3" (5-7.5cm). Do not overfill if using underfloor heating. We recommend you spot clean daily, and change or refresh every 6-12 months.
Precautions for use	Wear protective clothing like gloves when handling substrate and supervise children closely. Bags may be heavy.
Storage & Handling instructions	Please store this product out of reach from children.
Manufacturers Information	Monkfield Nutrition Ltd, Arthur Rickwood Farm, Chatteris Road, Mepal, Ely, Cambs, CB6 2AZ, UK
