

Specification Sheet

Product Name	HabiStat Leopard Gecko Substrate, 10L
Product Codes	HSLG10E
Description	The new HabiStat Leopard Gecko blend replicates the unique, dry, mountainous woodlands that leopard geckos call home, now better than ever. This expertly crafted mix of sand, clay and soils is designed to support natural behaviours like burrowing and provides a secure base for gripping, essential as leopard geckos lack adhesive toe pads. Packed pre-hydrated, it helps create humidity variation and supports the need for humid retreats and different moisture zones. HabiStat's Leopard Gecko blend is ready to use straight from the bag for a naturalistic, enriching habitat.
Intended Use	Animal use only
Available weight	10.08KG (Weight may vary due to fluctuating moisture levels)
Key Ingredients	Sand, soil, clay, bark fines
Technical Specifications	NA
Instructions for proper use	Spread substrate evenly across the vivarium base ensuring a depth of at least 2-3" (5-7.5cm). Do not overfill if using underfloor heating. We recommend you spot clean daily, and change or refresh every 6-12 months.
Precautions for use	Wear protective clothing like gloves when handling substrate and supervise children closely. Bags may be heavy.
Storage & Handling instructions	Please store this product out of reach from children.
Manufacturers Information	Monkfield Nutrition Ltd, Arthur Rickwood Farm, Chatteris Road, Mepal, Ely, Cambs, CB6 2AZ, UK
