

Specification Sheet

Product Name	HabiStat Spider Substrate, 10L
Product Codes	HSS10E
Description	The HabiStat Spider blend has been designed with invertebrates in mind, from tarantulas or scorpions to millipedes or stick insects. This blend is also great for burrowing invertebrates such as beetles or roaches. It is a blended mix of bespoke, natural, coir free, organic soils designed to increase invertebrate's natural behaviours. This substrate is extremely absorbent, non-toxic and non-abrasive. It helps maintain tunnel stability and supports safe burrowing. Pre-hydrated, it temporarily increases humidity and encourages healthy moulting. Ready to use straight from the bag for a naturalistic, enriching habitat.
Intended Use	Animal use only
Available weight	4.25KG (Weight may vary due to fluctuating moisture levels)
Key Ingredients	Organic peat, composted bark fines, sand, soil
Technical Specifications	NA
Instructions for proper use	Spread substrate evenly across the vivarium base ensuring a depth of at least 2-3" (5-7.5cm). Do not overfill if using underfloor heating. We recommend you spot clean daily, and change or refresh every 6-12 months.
Precautions for use	Wear protective clothing like gloves when handling substrate and supervise children closely. Bags may be heavy.
Storage & Handling instructions	Please store this product out of reach from children.
Manufacturers Information	Monkfield Nutrition Ltd, Arthur Rickwood Farm, Chatteris Road, Mepal, Ely, Cambs, CB6 2AZ, UK
