

## Specification Sheet

Product Name	HabiStat Tortoise Substrate, 10KG
Product Codes	HST10E
Description	The HabiStat Tortoise blend is tailored for Mediterranean and other arid tortoise species, recreating the dry, broken earth where these animals naturally roam. It is professionally blended from premium, natural materials, allowing it to compact under pressure while also remaining loose enough to burrow in, replicating their natural environment. This encourages natural behaviours like digging and foraging and supports healthy, active tortoises. Pre-hydrated, it provides a temporary humidity boost when added. Ready to use straight from the bag for a naturalistic, enriching habitat.
Intended Use	Animal use only
Available weight	10.08KG (Weight may vary due to fluctuating moisture levels)
Key Ingredients	Sand, soil
Technical Specifications	NA
Instructions for proper use	Spray at regular intervals to maintain humidity levels. Spread substrate evenly across vivarium base ensuring a depth of 2-3" (5-7.5cm) for small tortoises and 3-6" (7.5-15cm) for larger tortoises. Do not overfill if using underfloor heating. We recommend you spot clean daily, and change or refresh every 6-12 months.
Precautions for use	Wear protective clothing like gloves when handling substrate and supervise children closely. Bags may be heavy.
Storage & Handling instructions	Please store this product out of reach from children.
Manufacturers Information	Monkfield Nutrition Ltd, Arthur Rickwood Farm, Chatteris Road, Mepal, Ely, Cambs, CB6 2AZ, UK
