## GB HabiStat Crested Gecko Accessory Kit – Detailed Setup Instructions

Thank you for choosing a HabiStat Accessory Kit. In this kit you'll find all the basic components to get you started on your Reptile keeping journey!

Please read this instruction manual thoroughly. If there are any questions or areas you might need help with, please contact us at info@habistat.com.

**Terrarium Placement:** Keeping the Terrarium away from any heat source or windows is strongly recommended. Incorrect placement could cause temperature fluctuations. Please follow the enclosed instructions on how to build.

**Arcadia Pro T5 UVB Kit:** Install the ShadeDweller lamp into the Pro T5 UVB Kit and position it towards the front of the terrarium. Ensure the placement is aligned to where the basking spot and Clamp Lamp will be placed. Refer to individual instructions for installation advice. DO NOT connect any electrical equipment to the mains until setup is complete.

**Arcadia Clamp Lamp and Basking Bulb:** Install the Basking lamp into the Clamp Lamp and cover using the safety cage, position it on top of the mesh roof next to the UVB to finish the basking spot. Refer to individual product instructions for installation advice. DO NOT connect any electrical equipment to the mains until setup is complete.

**HabiStat Dimming Thermostat:** Secure the Thermostat probe within the basking area in the top half of the terrarium. Set the temperature to at least 28–29°C by pressing the up or down temperature buttons on the Thermostat, this may have to change depending on basking distance and probe placement. Please refer to the Thermostat instructions for further installation advice. Tip- Ensure there are no direct obstructions between the Basking lamp and the basking spot to provide the most accurate reading.

**HabiStat Digital Thermometer:** Place the Thermometer probe within the area you wish to monitor. This will give you an accurate temperature reading in the required area.

**HabiStat Dial Hygrometer:** Place the Hygrometer directly on the wall of the terrarium. This will allow you to monitor the humidity levels within the enclosure.

**HabiStat Feeding Ledge:** Secure the Feeding Ledge to a clean, dry inside wall of the terrarium using the suckers provided. Insert the feeding cups into the ledge, filling one with fresh water daily and the other with HabiStat Crested Gecko Diet when required.

**HabiStat Coir Mini Block:** The Coir Block supplied is compressed. Place the block into a suitable tray or bucket and add 1.5 litres of warm water. Allow approximately 1 hour for the block to fully expand. Once complete, evenly distribute the substrate across the base of the terrarium.

**Temperature Check:** You can now plug in and set your Dimming Thermostat to the desired temperature of 28–29°C . Ensure all doors are closed for a minimum of 60 minutes for the enclosure to heat up before monitoring. After this initial 60 minutes, continue to monitor the temperature over the next few hours. If the temperature isn't quite where you want it, please adjust the Thermostat or basking spot and repeat the process until you are happy. Please note opening the doors will affect the temperature, but it will stabilise once the doors are closed.

**HabiStat Pure Calcium & HabiStat Repton:** Use these supplements when dusting live food before feeding them to your Crested Gecko. Please refer to the individual packaging instructions for further information.

**HabiStat Insecta Snack:** Feed this to your live food alongside fresh greens and vegetables to greatly boost their nutritional value before feeding them to your Crested Gecko, this is best fed 24/36 hours before feeding to your gecko.

**HabiStat Crested Gecko Diet:** A powdered food mix containing real fruit and. This product is designed to be used as a complementary feed for your Crested Gecko.

*Note: The products enclosed in this kit may vary based on availability, but the basic setup and instructions should remain the same. Please follow all safety guidelines and read the individual instructions provided for each product for proper usage and care of your Crested Gecko.*
